

Leaf Sentry

GUTTER PROTECTION SYSTEM

Color Options

To protect your largest investment, insist on a Leaf Sentry gutter system:

- You won't have to perform the dirty job of cleaning your gutters
- Leaves and other debris stay out of your gutters
- You won't need to worry about the risk of climbing a ladder to clean your gutters
- Your gutters won't become a breeding ground for mosquitoes
- Seeds will no longer sprout up from your gutters

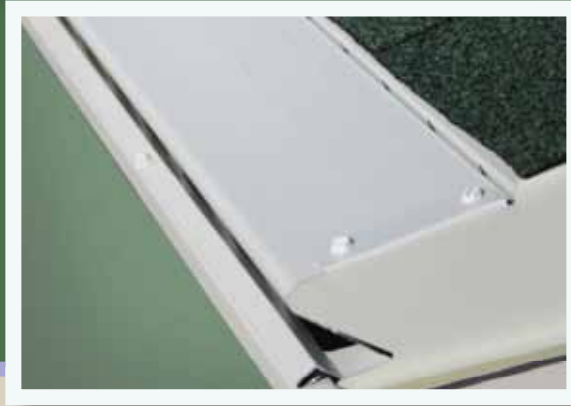

Leaf Sentry

GUTTER PROTECTION SYSTEM

*Permanent Automatic
Protection*

Lansing
BUILDING PRODUCTS

*An absolutely worry-free, maintenance-free
and cost-effective gutter protection system.*

Patented Design

The Leaf Sentry is a nose-forward, louvered cover specially engineered and manufactured to fit snugly onto your gutter. Even during the heaviest of rainstorms, the water flows around the nose past the Sentry, into the gutter and out the downspout.

Proven Technology

The Leaf Sentry has been successfully guarding thousands of homes across the country, protecting the gutters from extreme weather conditions. The aluminum is protected with high-performance treatment that provides superior protection.

- Attaches securely to your gutters and is a permanent protection.
- Makes use of surface tension to channel rainwater into the gutter, while leaves, sticks and other debris are prevented from entering.
- Innovative nose-forward design causes debris to fall to the ground.
- Leaf Sentry allows gutters to do what they're designed to do: drain water.
- Helps extend the life of your gutter systems.
- Made from 98% recycled aluminum.
- Available in 16 colors.
- Backed by the Manufacturer's Warranty.
